Advisory

Towards Improvement of Cleanliness and Environment in the College

With a view to improve the cleanliness standards in the College, students are advised to kindly adhere to the following:

1. Responsibly dispose waste in designated dustbins by following the guidelines of segregation of waste.
2. Do not litter the classrooms and other areas in the campus areas. Do not consume food/beverages inside the classrooms/tutorial rooms.
3. Do not leave water taps running in the washrooms.
4. Proactively try to reduce plastic waste. Bringing your own bottle/cups will greatly contribute to this endeavour.
5. Contribute to reduction of (*wasteful*) energy consumption by proactively switching off the lights, fans and projectors on leaving your classrooms/tutorials rooms.
6. Do not deface walls of the College.
7. Do not paste posters for events and other activities anywhere on the Campus except the Wall of Democracy. Strict action shall be initiated against the student society in violation.
8. The student societies organizing events in the College campus are responsible for their waste post-event and have to ensure the cleanliness and waste management of the venue during and after the event.
9. Do not scatter the furniture arrangement in classes and tutorials. Ensure that the class furniture is properly arranged while entering and exiting the classroom/tutorial.

We look forward to the active and enthusiastic support of the SRCC Community in building a cleaner and healthier College.
