## NOTICE

### CENTRE FOR GREEN INITIATIVES

Recognising the need and importance to protect, preserve and conserve nature, the College has given its environmental efforts a shape in the form of the **Centre for Green Initiatives**. The Centre for Green Initiatives aims to develop a campus wide culture of eco-friendliness and conversation of environment. The objective of the Centre is to foster environmental awareness and care by promoting better conservation practices and sensitisation on waste management, recycling initiatives and better use of environmental resources.

As a part of its endeavour, the Centre is organising an open house discussion on the theme of:

***"Start Today, Save Tomorrow"***

The discussion will be held in the Seminar hall on Wednesday, 2nd March 2016 at 1:30 pm.

The Centre is organising a slogan writing contest on environment sustainability which would encapsulate the essence of environment protection and conservation in recent times. Original and creative slogans can be sent at the email ID: **convenor.gic@srcc.du.ac.in**. The slogans on the above theme will be accepted till 11.00 am, Tuesday, 1st March 2016. The best slogans will be duly rewarded. Further, as a mark of recognition, the selected slogans will be displayed on the LCD screens around the College and the official website.

Your participation in the contest and the discussion would be highly appreciated.

Dr. Rachna Jawa  
(Convenor)  
Centre for Green Initiatives

Dr. R.P. Rustagi  
(Principal)
