## Second Wave of Covid-19 Preventive Measures and Advisory

3<sup>rd</sup> of April, 2021

Dear Student,

Hope my message finds you in the best of your health!

As the second wave of COVID-19 sets in we need to be cautious and vigilant to defeat the deadly Coronavirus. There has been drastic upsurge in the number of positive COVID cases being reported in and around Delhi and NCR. The college authority stands committed to safeguard its students from this deadly disease and play an active role in preventing the spread of virus. As youth, your role to protect the nation from the spread of this deadly disease is crucial. Our country has already begun the world's largest immunization drive and we hope to have several more vaccinations soon.

On the academic front college still continues with online teaching and learning. The students are advised not to visit the college campus until it is very important. All official work can be done via email and other channels. The college library stands committed to provide online study material as and when required by the students. Various e-resources are already shared by the respective faculty from time-to-time for enhancing teaching-learning experience.

In order to cater to the psychological and emotional well-being of students, the college counselling services are accessible to all its stakeholders 24\*7. A well-qualified team of psychological and career counselors are available to address the problems of students. These services have been well-received by the students and I request all the students to avail these services, when desired. The services are free of cost for our dear students.

Students are also advised to follow the advisory issued by MoHFW, Ministry of Aayush and the local authorities from time to time to prevent spread of COVID-19. Preventive measures such as wearing a face mask, maintaining social distances, frequent washing of hands or sanitization, covering your face while coughing or sneezing and avoiding crowded places are few practices which will protect you and your loved ones from the infection.

Together let's make our society Corona free.

Stay Safe, Stay Healthy!

Prof. Simrit Kaur

Principal
